# GO GREEN

with IGS Energy

AND THE DAYTON REGIONAL GREEN INITIATIVE

 go green™

# Great Partnership. Exceptional Benefits.

The Dayton Regional Green Initiative has partnered with IGS Energy to offer Green Certified Businesses customized rates on their electricity. This exclusive partnership includes green-energy offers for both your business and your employees.

With over 25 years of energy expertise, you receive more than just clean, renewable energy; **you also get expert guidance, dedicated account representatives, and proactive market communication.**

## HOW IT WORKS

IGS Energy is providing Dayton's Green Certified Businesses with a dedicated representative to work as your trusted energy partner. Along with industry expertise, your IGS representative can offer up-to-date education on a wide variety of energy products.

When you enroll with IGS Energy through the Dayton Regional Green Initiative program, every month up to 100% of your electricity purchase can be renewable energy. By utilizing this partnership benefit, Dayton area businesses and homes are supporting renewable-energy development and the Dayton Regional Green Initiative.

## POWER-ON WITH MORE THAN JUST ELECTRICITY

Our go green™ rates are just the beginning of all the great benefits you receive from IGS Energy. As a direct supplier of energy, we can also offer competitive rates on natural gas for your business and your employees.

# Go Green Today!

## FOR YOUR BUSINESS

Our go green™ products make it easy to support renewable energy in your community. Contact your dedicated representative, Stephen Match, with a copy of your utility bill for a customized cost comparison.

## FOR YOUR HOME

As another DRG benefit, you and your employees also have access to competitive go green™ or standard energy rates for your homes. You simply log on to **IGSEnergy.com** and enter the promo code:

## DRG3

Or call **800-280-4474** and mention the DRG3 go green™ program.

# IGS ENERGY®

THE POWER OF TOMORROW®

Founded in 1989, IGS Energy has been a leading advocate for change in the energy industry with the goal of offering a choice to commercial, industrial, and residential customers in energy supply. Today, the company expertly advises and helps consumers make smart energy decisions that fit their individualized needs. IGS Energy supplies natural gas and electricity to more than one million customers, and offers a variety of Home Services products to help consumers protect their homes and further manage their energy costs.

The Dayton Regional Green Initiative is a leadership collaborative committed to enhancing the quality of life and environmental assets of the region by growing our economy, protecting a healthy environment, and promoting social responsibility.
